EXPERTLY ENGINEERING SAFETY FROM FIRE

KOFFEL TALKS

Koffel Associates offers these hour-long presentations to larger local area clients and prospects to help them keep abreast of changes and nuances in the codes:

- 2009 NFPA 101® Life Safety Code® Updates
- 2009 NFPA 1 Updates
- 2009 IBC Updates
- 2007 NFPA 13
- 2007 NFPA 72
- Overview of the IBC
- Transitioning from the MBRC to IEBC, including Building Rehabilitation Provisions of NFPA 101
- NFPA 101 Life Safety Code Basics for Interior Renovations
- Building Rehabilitation Provisions of NFPA 101
- Maryland Fire Prevention Code Update
- Revising the Joint Commission Standards – A New Chapter in Life Safety
- Fire Protection Requirements of the Unified Facilities Criteria
- Broader use of Fire Modeling in Design Projects
- Basic Principles of Smoke Management Systems
- Overview of Alternative Fire Suppression Systems
- Fire Stop Systems – Real World Problems

Please call Gayle James or email gjames@koffel.com if you are interested in any of the above training options or wish to learn about other training classes.

SAME EXPERTS—NEW LOOK!

We have a new look....

...A new Identity.....A new Brand...

...A new Tagline...And a new Website!

However, we remain the same Koffel Associates ...

...your trusted source for fire protection engineering services

...the industry's renowned authority on codes and standards

...and *your* direct line to an expert!

Since 1986, we've been meeting your needs with focus and innovation. As our client, you've gotten the best of both a large *and* a small company—the services from the authority on fire protection codes and standards *and your* direct line to an expert. We continue to provide the superior fire protection and life safety engineering design and consulting services you expect from us. The launch of our new brand with a new logo, stronger client-focused messaging and a revamped website better communicates our core engineering and consulting services.

(Continued on page 2)

EXPERIENCE IN BUILDINGS WHERE YOU LEARN, LIVE, WORK & PLAY

We offer a broad range of fire protection engineering services including building and fire code consulting for new and established buildings, fire protection systems design and analysis, fire protection and/or life safety surveys, development of performance-based code approaches to facilitate designs, representation in the code

development process, and review on behalf of the Authority Having Jurisdiction. From government buildings, high-rises, hospitals and medical facilities, office buildings, K – 12 schools, universities and college, industrial facilities, detention facilities, theaters, shopping centers, hotels, to conventions centers—we'll be working for you.

SAME EXPERTS—NEW LOOK! (cont'd)

Our team of industry leaders and staff are fire protection engineers; registered engineers; NICET-certified technicians; code officials; and authorized National Fire Protection Association (NFPA), Centers for Medicare & Medicaid Services (CMA) and International Code Council (ICC) trainers—all working to meet your fire protection engineering and life safety design and consulting needs. We stand ready to put our experience, strengths and knowledge to work for you!

We strive to be a company with whom we'd want to do business. Our values are the foundation of everything we do, and we hold ourselves to a higher standard than anyone might benchmark for us. We continue to vow to keep our focus on how we can best benefit you and the fire protection industry as a whole.

EXPERTLY ENGINEERING SAFETY FROM FIRE

CODE & DESIGN GUIDELINE DEVELOPMENT

Our continued participation in these associations and on numerous committees are of great benefit when designing fire protection systems, providing code consulting services or negotiating with code-enforcement officials.

- American Society for Testing and Materials (ASTM)
- International Association of Plumbing and Mechanical Officials (IAPMO)
- International Code Council (ICC)
- International Fire Code (IFC)
- International Building Code (IBC)
- International Code Council Evaluation Service (ICCES)
- International Existing Building Code (IEBC)
- National Fire Protection Association (NFPA)
- Society of Fire Protection Engineers (SFPE)
- Underwriters Laboratory (UL)
